# Alliance of Companies

Our products are made available to the American Associations' members through ISM's unique Alliance of Companies. ISM believes that what one company can do for you, an Alliance of Specialists can do better. By joining forces with ISM's Administrator, the American Associations of Government/Private Employees, major insurance companies and reinsurance, ISM brings together expertise in sales and marketing, premium administration, customer service, underwriting, policy/certificate issue, commission accounting, and financial strength.

**ISM**, having produced more than \$10 billion in life insurance and annuity business through its thousands of representatives, would rank among the highest producing companies in the life insurance industry. ISM's outstanding track record and sales and marketing expertise make it the driving force within this Alliance of Companies.

**ISM's** administrator services tens of thousands of policy/certificate holders, collecting premiums and remitting funds to insurance companies and financial institutions on behalf of its clients and Association members.

**The American Associations of Government/Private Employees** are not-for-profit associations and are designed to help their members save money. Since 1990, each of the benefits has featured cost savings for both services and discounts on purchases made by their members. The list of benefits is comprehensive, easy to use, and accessible by a toll-free number or at [www.americanassociations.org](http://www.americanassociations.org).
